

User testing discussion guide

Before the test

- Ensure the participant has access to the prototype. Send them an email with a link and ask them to wait to open the link until instructed to do so.
- Ensure you and the participant are in the same room, and that you are prepared to take (written or digital) notes of their answers.
- Update the content in brackets for your test. Do not read it as written.

Introduction

Moderator: Hello. Thank you for your time. In this test, we'll be asking you for your feedback on how things are presented and described. What you'll see today is a prototype, so functionality will be limited. I will be taking notes for reference later on.

Start by imagining you are on your laptop or desktop computer and you're visiting the Cheyenne Mountain Zoo's website. You are planning to visit the zoo with your family and you'd like to purchase tickets and reserve a wagon rental online.

Tasks

Please open the link to the prototype that was sent to you via email.

Homepage

Moderator: Spend some time reviewing the homepage. Think aloud as you go. (Participant: verbal response)

- Notes:

Moderator: What, if anything is unclear, confusing, or missing? (Participant: verbal response)

- Notes:

Moderator: What do you expect to happen if you click on "visit" in the navigation bar?
(Participant: verbal response)

- Notes:

Moderator: Click on "visit" in the navigation bar.

Purchase a ticket flow - page 1

Moderator: Spend some time reviewing this page. Think aloud as you go. (Participant: verbal response)

- Notes:

Moderator: What, if anything is unclear, confusing, or missing? (Participant: verbal response)

- Notes:

Moderator: Click on [the part of the screen that fills in your fields] to [make selections/fill in information]. (Pause for any verbal feedback). What do you expect to happen if you click on [the button that advances to the next screen]? (Participant: verbal response)

- Notes:

Moderator: Click on [the button that advances to the next screen].

Purchase a ticket flow - page 2

Moderator: Spend some time reviewing this page. Think aloud as you go. (Participant: verbal response)

- Notes:

Moderator: What, if anything is unclear, confusing, or missing? (Participant: verbal response)

- Notes:

Moderator: Click on [the part of the screen that fills in your fields] to [make selections/fill in information]. (Pause for any verbal feedback). What do you expect to happen if you click on [the button that advances to the next screen]? (Participant: verbal response)

- Notes:

Moderator: Click on [the button that advances to the next screen].

-

Purchase a ticket flow - page 3

Moderator: Spend some time reviewing this page. Think aloud as you go. (Participant: verbal response)

- Notes:

Moderator: What, if anything is unclear, confusing, or missing? (Participant: verbal response)

- Notes:

Moderator: Click on [the part of the screen that fills in your fields] to [make selections/fill in information]. (Pause for any verbal feedback). What do you expect to happen if you click on [the button that advances to the next screen]? (Participant: verbal response)

- Notes:

Moderator: Click on [the button that advances to the next screen].

-

[Copy and paste additional steps for each page in your ticket flow here]

[Wrap up]

Moderator: Is there anything you'd like to share about the experience that you haven't been able to yet?

Notes:

Moderator: You can close the prototype. Thank you for your time, we appreciate your feedback.
